RESEARCH POSTER

HOW TO MAKE A
RESEARCH POSTER
A GUIDE FOR
STUDENTS

BREAKTHROUGHS WOULD NOT BE POSSIBLE WITHOUT RESEARCH.
KEEP PEERS INFORMED ABOUT YOUR LATEST FINDINGS.

AUTHORS

Add the names of the people involved in this study.

AFFILIATIONS

Name the institutions that support your research.

INTRODUCTION

Introduce the subject of your research. What are the questions about this topic you aim to answer?

OBJECTIVE

Explain what you want to achieve with your research.

METHODOLOGY

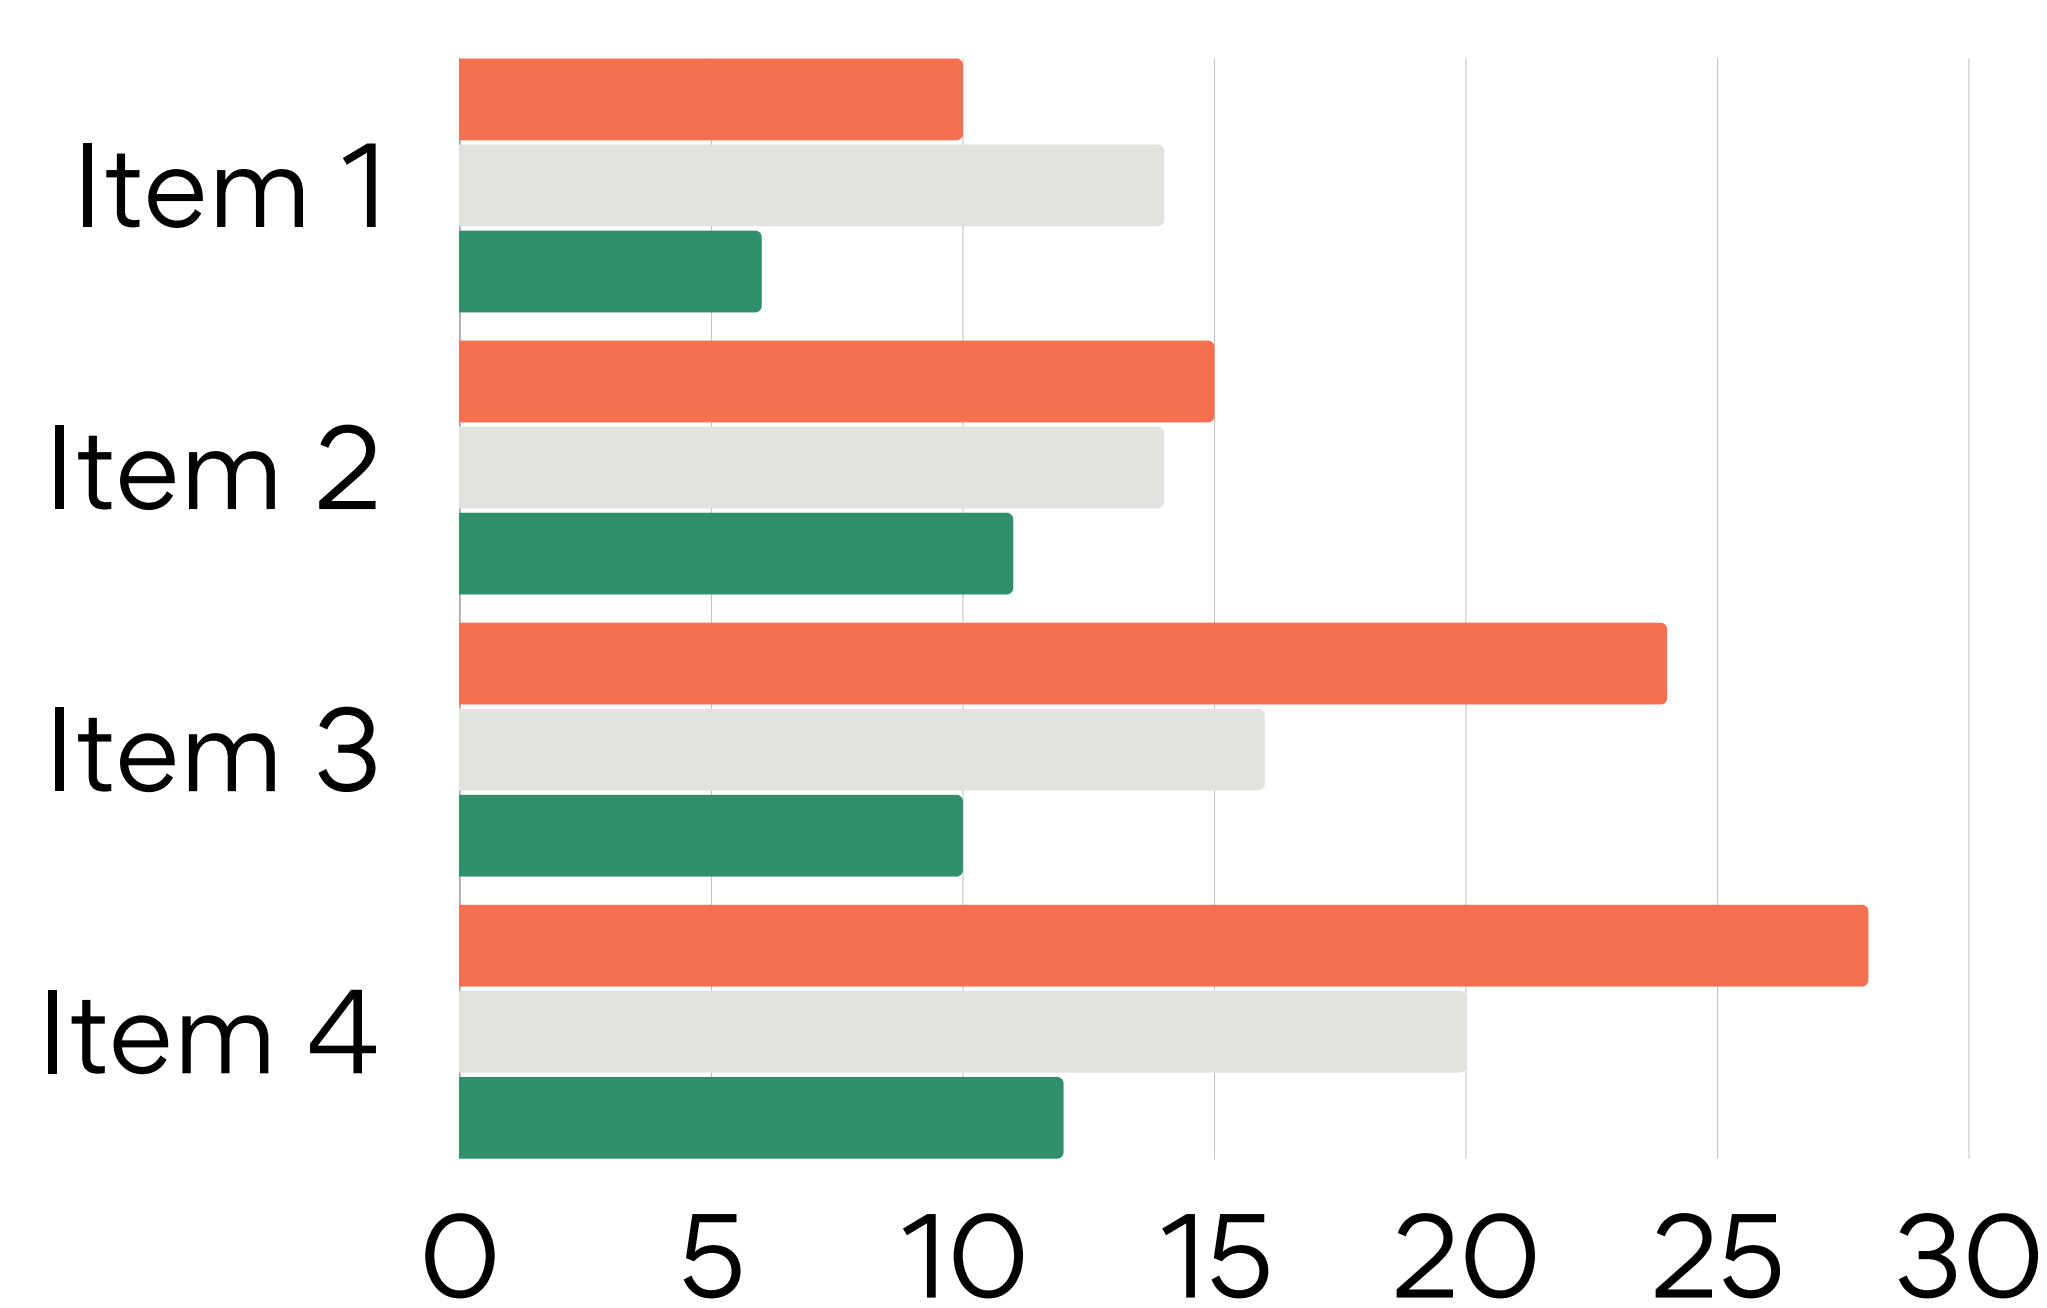

Let people know how you did your study.
Methods can vary depending on the subject or results you want to see.

RESULTS/FINDINGS

- State what you've found from your study
 - You can also list your findings in bullets.
- Avoid too much technical detail or excessive jargon when presenting them.

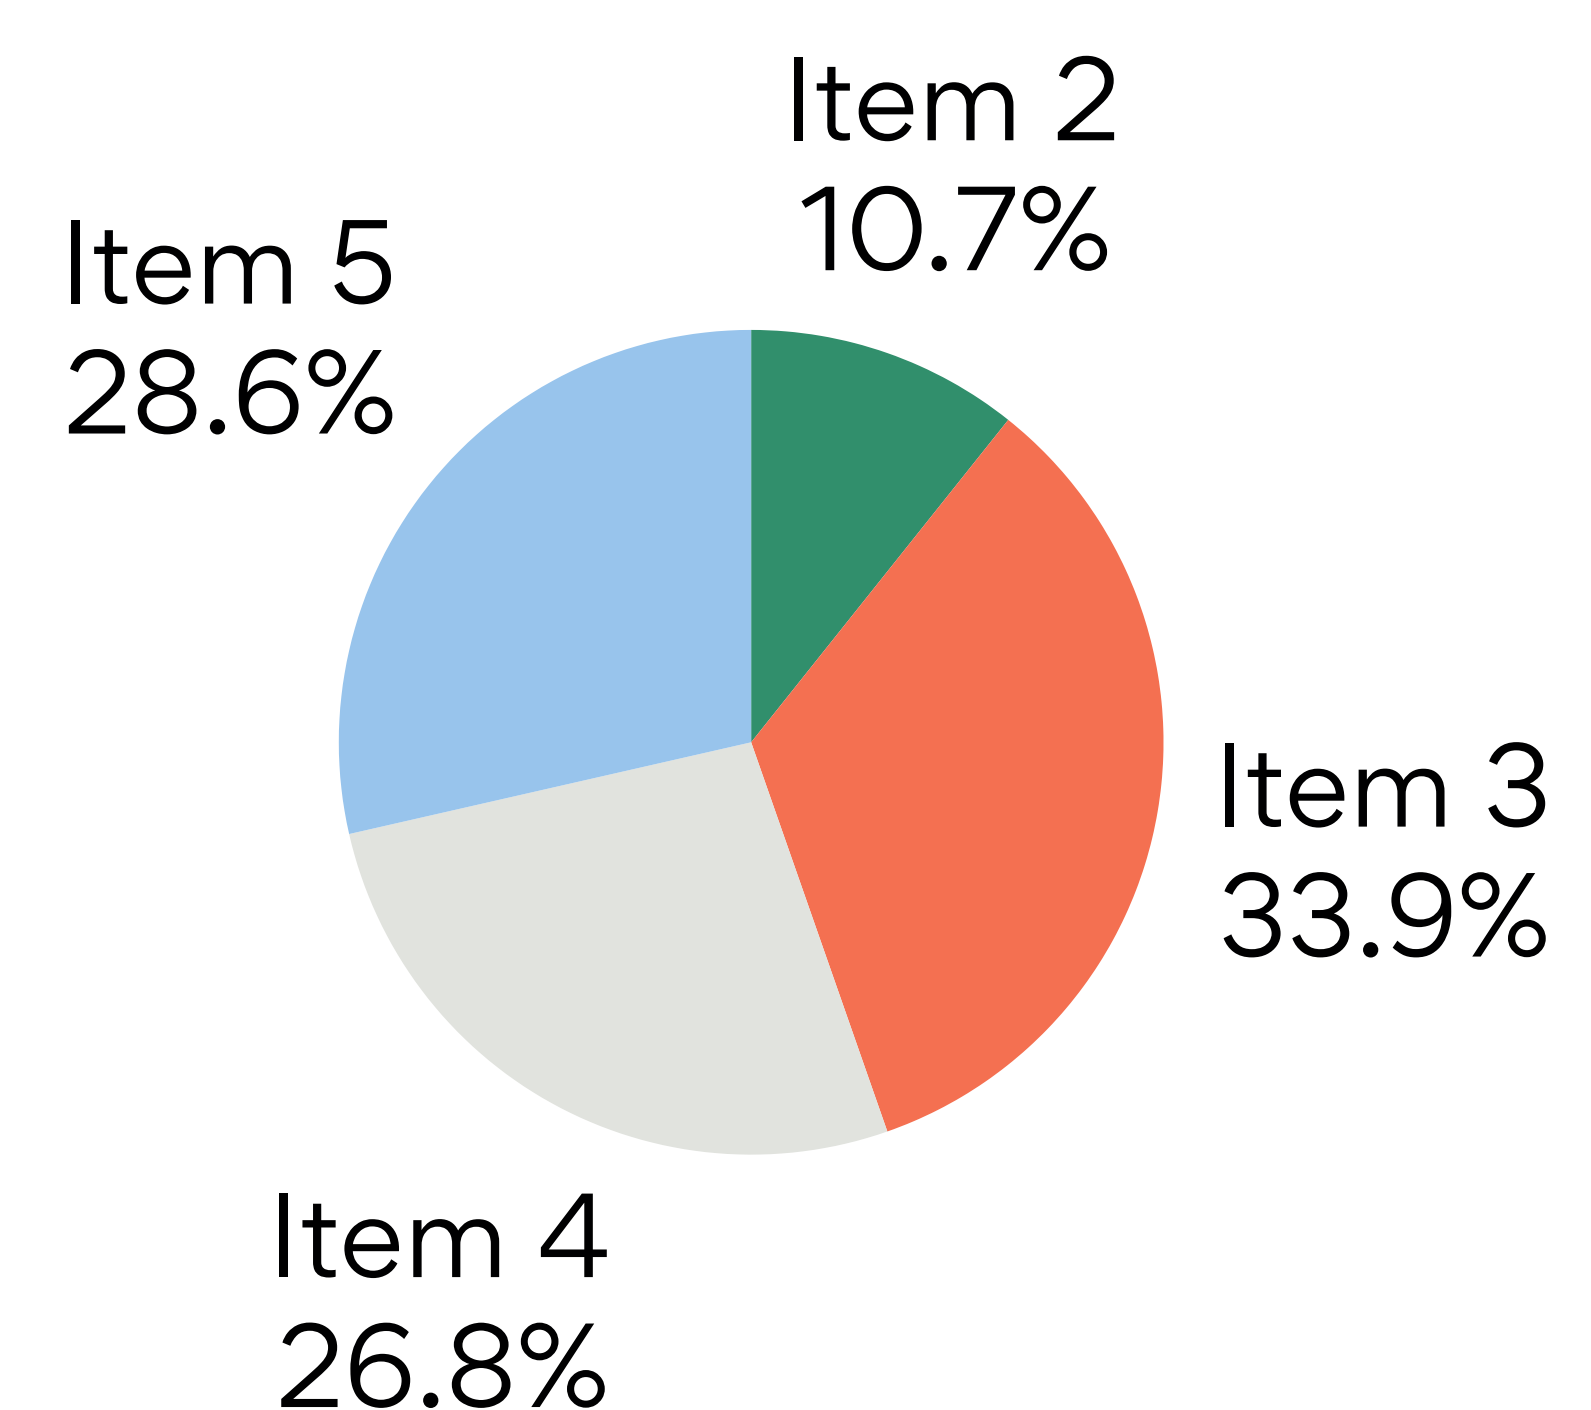

EXPLAIN YOUR CHARTS

Add the chart title

Canva Tip: Double-tap on the sample charts to change the data

Add the chart title

ANALYSIS

Interpret the data collected. Explain any patterns, trends, or anomalies discovered.

RECOMMENDATIONS

Make suggestions for future research and practical applications based on the findings.

CONCLUSION

Summarize the key findings of your study.
Address any limitations encountered during your research. End with a powerful closing statement that emphasizes the broader impact of your research.

CITE KEY REFERENCES USED IN THE STUDY

Research Poster

Write the names of the authors and any affiliations.

Introduction

Introduce the subject of your research and the ideas you plan on investigating or exploring further.

Objective

Describe the objectives of your study and what you aim to achieve upon completion of your research.

Image Title

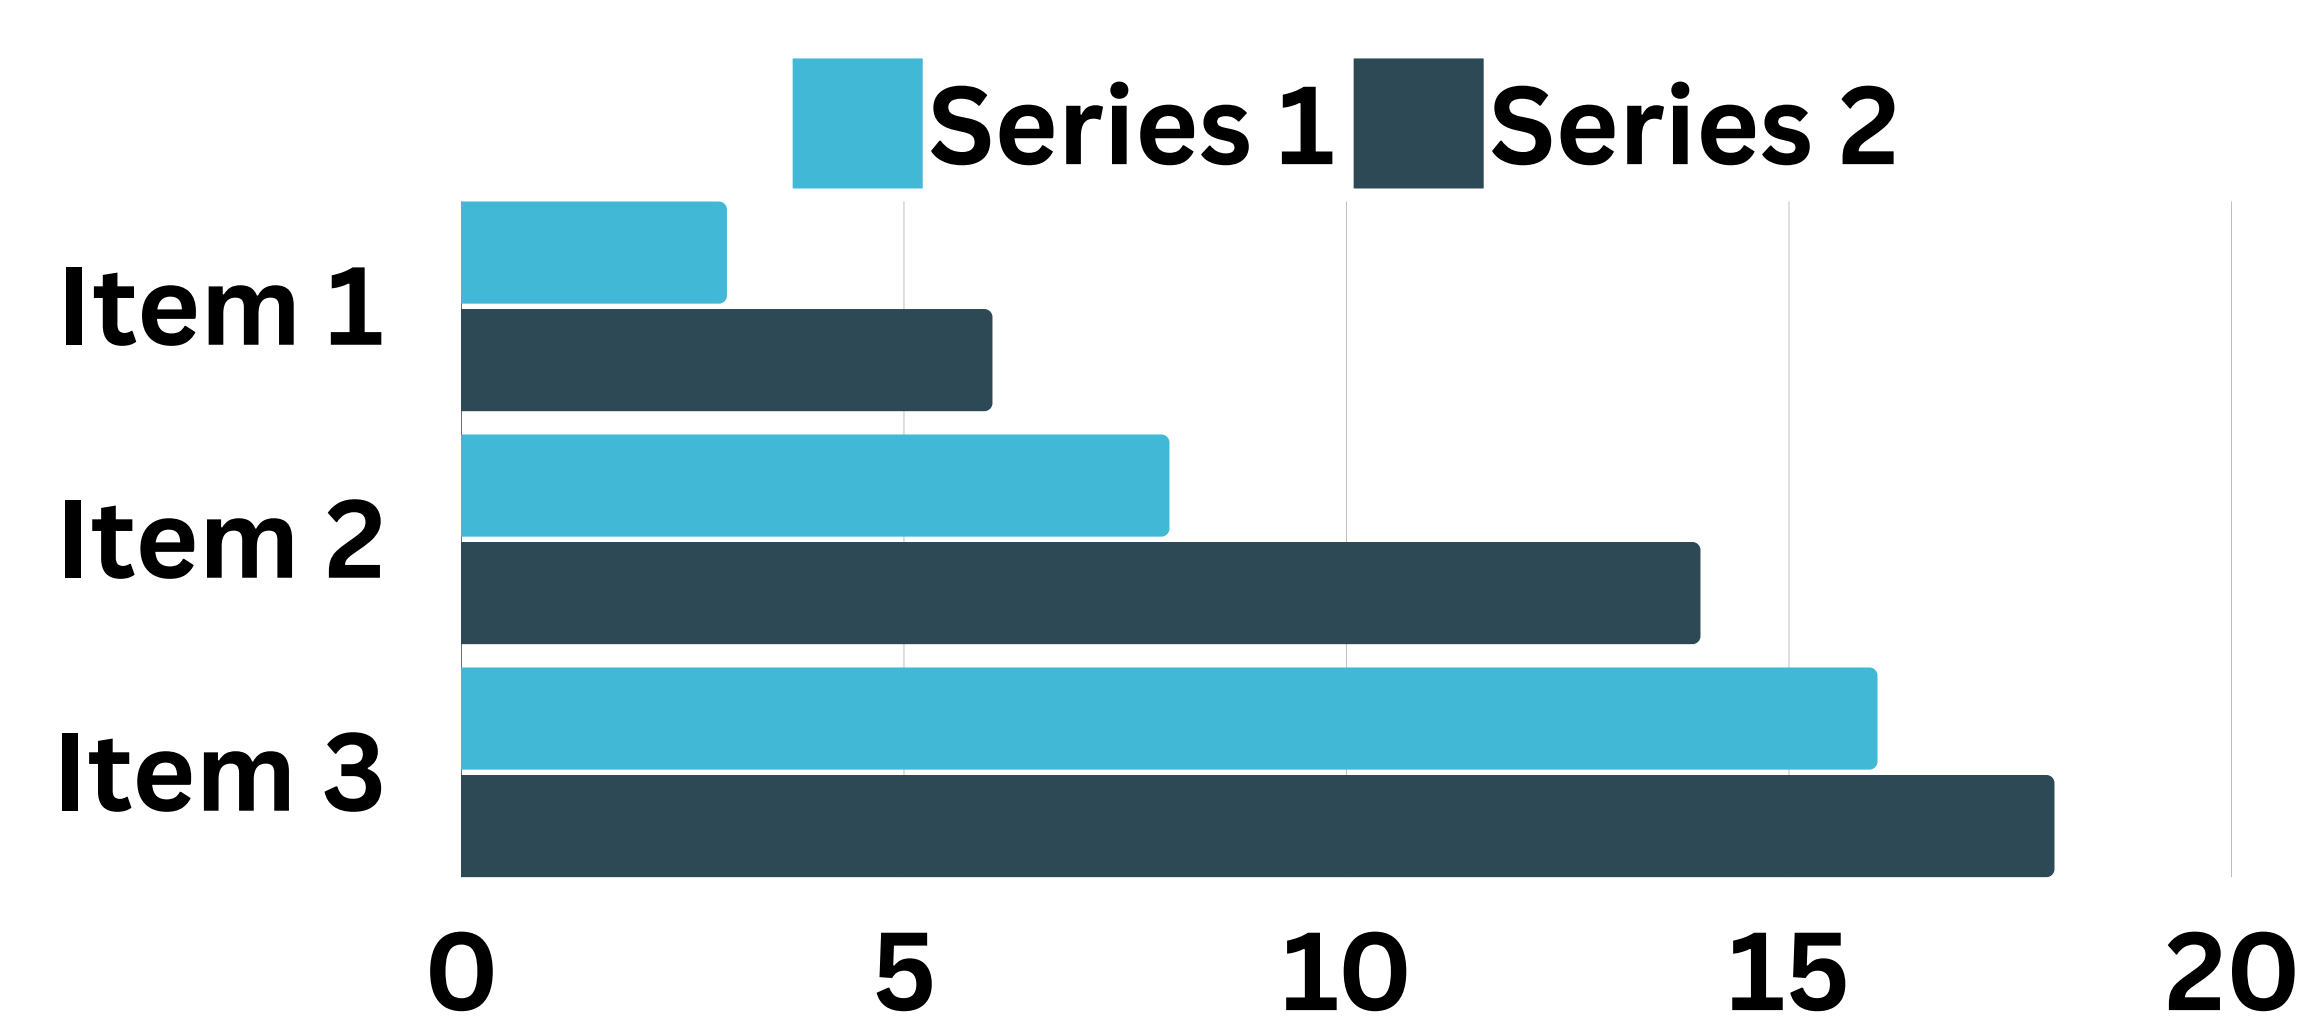

Methodology

Let the reader know how you carried out your study and describe the key stages of your investigation. The level of detail you add to this section, will depend on the subject and objectives. Make sure your methodology is clear and concise.

Results

Your results should outline the key findings from your study. You could use data in this section to solidify your findings and provide evidence. If you double-tap on the chart, you will be able to change the chart type and input your own data.

Conclusion

Your conclusion should summarize the study and state if the objectives have been achieved.

Key Sources

1. List your key sources.
2. You could number your sources so they are more organized.

Write acknowledgements or recommendations here.
